

OXON WOODTURNERS' CLUB

July Newsletter

Dear Members,

July's club night was a great hands-on session and we had several new visitors come along to try their hands at turning.

Our next Club night was scheduled to be 11th August, but unfortunately we will be unable to access the Village Hall this month due to building works. As such the next meeting will be 8th September, with apologies to all for having to miss a session. September will be a Hands-on session, and I've been cutting some spindle blanks to keep our "Club wood" well stocked.

I'd like to welcome any feedback on the running of the Club, and if any Members are interested in joining the Committee then please let me know. I'd also like to invite suggestions from Members as to what they would like to see going forward, both in terms of Demonstrators and also Monthly competition projects. As a Member, this is **your** Club, and it is important that you feel engaged and interested in what we do here.

If Members wish to send correspondence, please do so *via* the Ace North (Club Secretary), or directly using my personal email (finnmore.daniel@gmail.com) if preferred.

The competition theme for our September meeting will be **a candlestick (or matching pair/set)**. These can be as plain or as elaborate as you have time for, and with August's meeting cancelled there is even more time to produce something to display.

Dan
